Activate Licenses

If not running OS X Mavericks, download this installer

This page will help you to install and activate your plugins.
Please select from the options below.

DiGiCo and VENUE users: please follow steps on the "My audio computer is NOT online" tab.

My audio computer is online

My audio computer is NOT online

1. Download and install Waves for Mac | Windows.

During the installation, select only the bundles / plugins you wish to install and for which you have licenses.

WavesLive users: [select your platform](#), then download the appropriate installer.

OS X 10.9 Mavericks users: download and run the [offline installer](#).

2. Launch Waves License Center.

On Windows, via the desktop shortcut or Start Menu > Programs > Waves.

On Mac, via the dock icon, or the following path: HD > Applications > Waves > Applications > WLC.

3. If you wish to activate Waves on a USB flash drive, connect it now.

For both OS X and Windows compatibility, your USB flash drive must be FAT32-formatted. For more information, [click here](#).

OS X Mavericks users must download this installer

4. Your license will be waiting for you on your License Cloud.

5. Under **Select Licenses**, choose your license/s.

6. Under **Select Destination**, choose your computer or USB flash drive.

7. Click **Send Licenses**.

Your Waves product is now installed and activated.
